

Effective 01 May 2023

Top be read in conjunction with GRNZ Rule 25: Minimum vaccination requirements

### **Vaccinations: Nomination Window & Grace Period after Due Date**

**When a vaccination Due Date is reached you will have a Vaccination “Nomination Window” of 14 days, and a Vaccination “Grace Period” of 21 days.**

So, if the GRNZ system allows a greyhound to nominate, then that greyhound will be racing within the 21 day Grace Period. The length of the Grace Period is the recommendation of the Greyhounds Australasia Veterinary Advice Committee.

Example: If your vaccination due date is 1 May 2023, then you will be able to nominate up to and including 15 May 2023 (Nomination Window) and race up to and including 22 May 2023 (Grace Period).

Where a greyhound is nominated for a series, a trainer must ensure it complies with the vaccination requirements for all races of that series.

Trainers must notify GRNZ of the vaccination of a racing greyhound within 24 hours of the vaccination taking place to ensure the ongoing accuracy of GRNZ's systems.
